## **Do you have things laying around? Do you know or have any great connections to people or companies?**

Donating your physical items to BBB Ministries is sometimes a blessing but more often than not a financial contribution toward the purchase of needed supplies is more financially efficient. Since we are a nonprofit, we have resources to allow us to purchase medical and educational supplies cheaper. Bringing things from the states is only effective when they can be brought for free, with volunteers. Shipping to Uganda is a nightmare and very costly.

This doesn't mean we do not appreciate or need physical supplies that are donated. More than half of our supplies are donated. IF this is an area you really want to help in, please contact Lily, at [bbbministries@yahoo.com](mailto:bbbministries@yahoo.com)
